Dear Andrew

Re: Shipping of Atlantic Rowing Boat – 'Row 4 Cancer'

We are writing to thank you for the excellent service we had from PA Freight in shipping our boat to La Gomera for the start of the 2005 Atlantic Rowing Race and then back from Antigua after the finish.

The only part of the entire campaign that we had no direct control over was the time when the boat was being shipped and as a result we were rather nervous. However, the professionalism with which PA Freight handled the shipping filled us with total confidence.

The PA Freight team treated the boat with real care and it was delivered to La Gomera on the exact day we required, and was shipped back from Antigua faster than we expected!

We would have absolutely no hesitation in strongly recommending that anybody else requiring the shipping of a rowing boat to anywhere in world, turn to PA Freight as their 'first port of call'.

Thank you for all your efforts.

Kind regards,

Richard & Liz
