Hi Andrew,

Just to let you know that myself and Ciaran Lewis from the Digicel Rowing Team were very happy with the service that PA Freight provided us in getting our boat to the start line of the 2005 Atlantic Rowing Race. Our boat arrived on time, without problems or damage, and allowed us to prepare properly before the start without having to rush around and worry about where our boat was. I will certainly be shipping with you in the future.
