Recommendation of PA Freight according shipping rowboats between Antigua and Denmark

I was a participating the Atlantic Rowing Race 2005 in the only Danish Team "Team Scandlines". We were making all the preparation from Denmark and there for we hired a Danish company to ship our boat from Denmark to La Gomera and from Antigua to Denmark. And it was the cheapest offer we could find on the market.

Things went almost fine to La Gomera, except the boat arrived late, over 4 days after the plan. When we came to Antigua every thing went wrong. We could not get contact to the local agent, either could the Danish company, after 7 days of phone calling Denmark and local people, we asked PA Freight to take care of our boat. Then the boat came fine and with out any problem to Denmark.

I can here by give PA Freight my best Recommendation for shipping rowing boats, according to Ocean rowing. PA Freight just know every thing, please aware of when shipping ocean rowing boats for the cheapest deal, it will be more expensive for you.
